

# How to install Visual Studio Code

Dr Frazer Noble

# Introduction

In this presentation, I will describe:

- How to install Microsoft's Visual Studio Code.

# Get Visual Studio Code

Browse to <https://code.visualstudio.com/>.

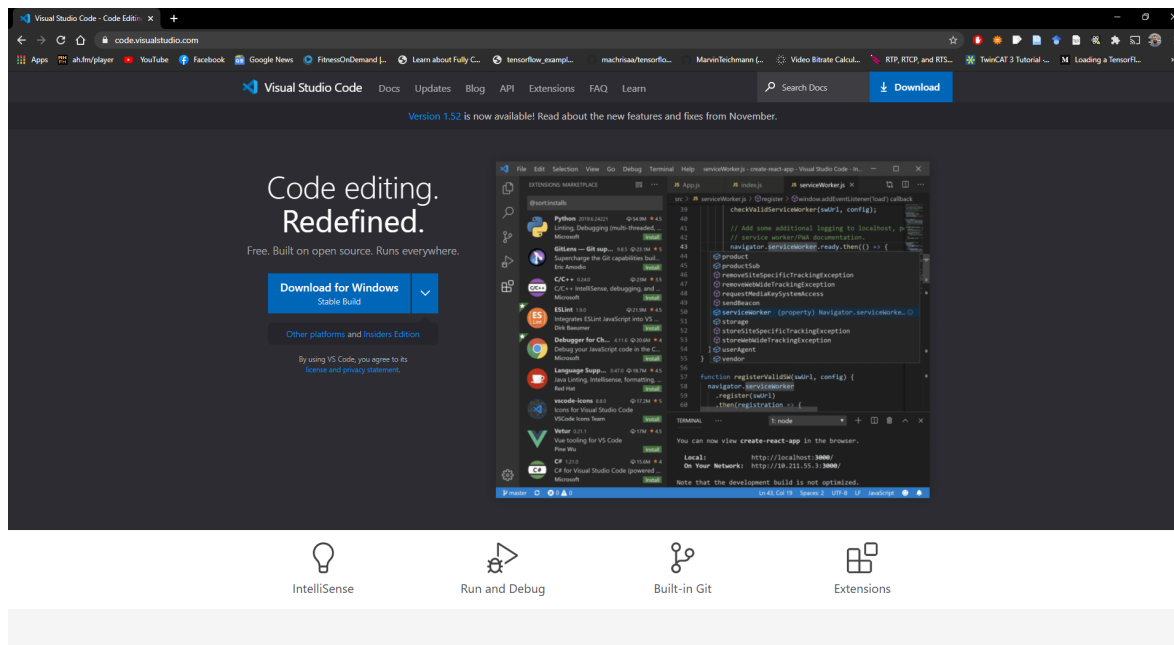

Figure: <https://code.visualstudio.com/>.

Left click on the "Download for Windows" button.

This will download Visual Studio Code's setup program.

Browse to where Visual Studio Code's setup program was downloaded.

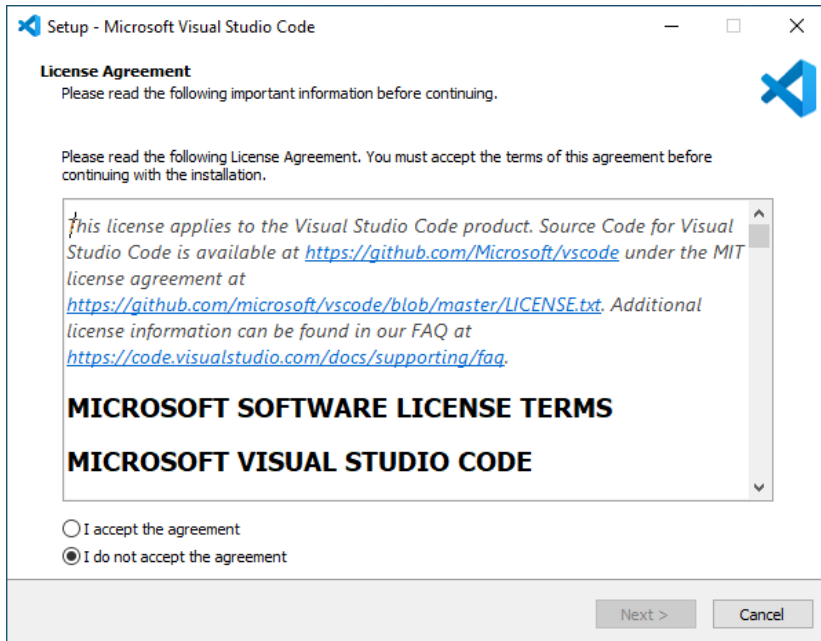

Either:

1. Double click on program's icon;  
or,
2. Left click on the program's icon and press `Enter`.

This will start the installation process.

# Licence Agreement

Something similar to the following will be displayed:

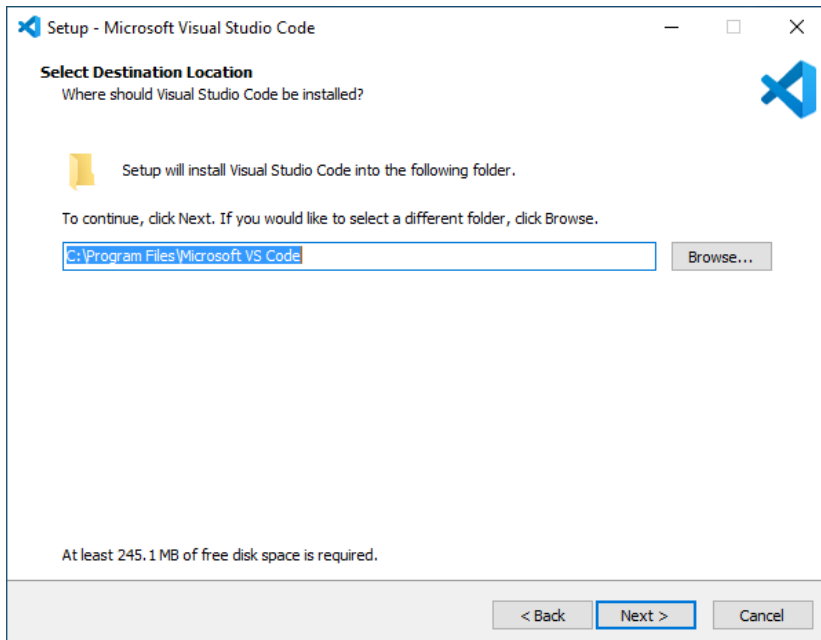

*Figure:* Licence Agreement window.

Select the "I accept the agreement" radio button.

Left click on the "Next >" button.

# Select Destination Location

Something similar to the following will be displayed:

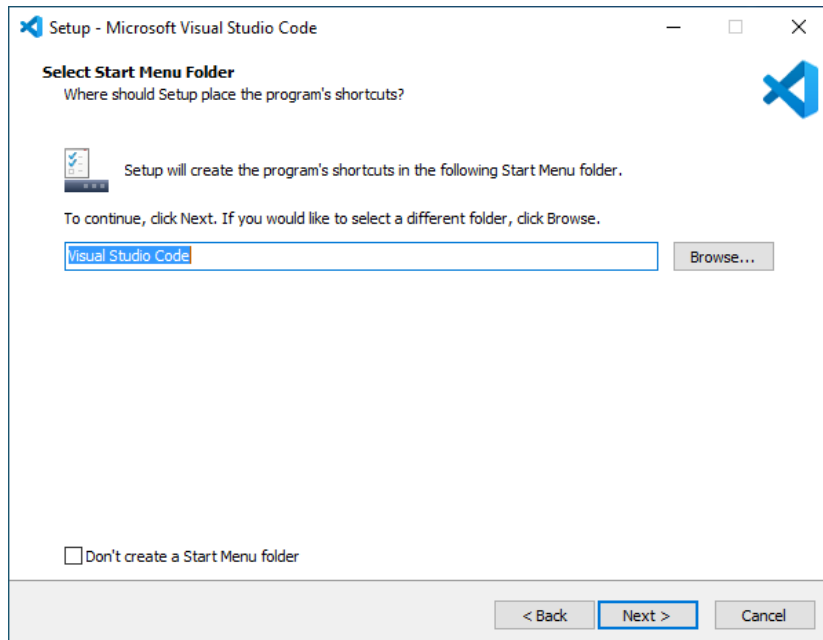

*Figure:* Select Destination Location window.

Left click on the "Next >" button.
